<p>uesa? Existe algum descendente... quora :</p>
<p></p><p>So, I got a soft blob-like thing, and I was tossing with it in a prototype for a very long 🏀 time. It turned out that it s tough to invent something new. Finally, I got an idea of a fat cat 🏀 th at likes to blow balloons. The name of the game is Puffy Cat, and I ll be glad i f you play 🏀 it on Poki!</p>
<p>The final version of the game has 150 levels, 26 hats, 18 balloon skins , 225 sprites, 35 sound 🏀 fx, and plenty of fun! And we agreed with the publisher to make two more games in the Puffy Cat 🏀 series with new ga me mechanics and content.</p>
<p>What I like the most about Defold is that:</p>
<p>I use Defold IDE to make 🏀 levels, i.e. I have quite a few pre -made game objects to construct a level. Every level is a collection with 🏀 references to these game objects. All these levels linked to the parent col lection as Defold s collection factories. It s an easy 🏀 way to make le vels without any external editors like Tiled etc.</p>
<p>All I need to run a game from sources is 🏀 to download Defold IDE and build/run a project.</p>
