&lt;p>&lt;/p>&lt;/p>To fully exploit the constrained width, avoid loading the neighbouring structures and straddle shared utilities running under the site, the &#127803; house was constructed using a lightweight steel frame on a piled slab. The steelwork was prefabricated as a series of &#127803; portal frames that were craned down the alley and site-welded together. Given that every inch in such a narrow space &#127803; was valuable we chose to fully weld the connections and express the frame internally, even utilising the depth of the &#127803; steels to maximise the space.&lt;/p>  
&lt;p>Alongside the painted steel a simple palette of spruce plywood, douglas fir joists, terrazzo and cork &#127803; flooring enriches the interior. Externally the timber framed walls are clad in handmade pewter glazed brick slips with a patina &#127803; that reflects the changing light of the sky. Both the simply landscaped and planted rear courtyard and the garden in &#127803; front of the house enhance the feeling of space in this small dwelling.&lt;/p>  
&lt;p>This self-build project had a long gestation, fitted &#127803; in around professional and family life. The design and construction were developed as time and money allowed so whilst planning &#127803; consent was given in January 2014 and the ground works commenced in the spring of 2024, the building was not &#127803; completed until August 2024. We worked closely with friend and joiner Michael Tye to lead a small team of local &#127803; subcontractors and employed specialist fabricators for certain key packages as well as undertaking a fair amount of the work ourselves.&lt;/p>  
&lt;p>The &#127803; result is a unique and highly crafted home that is a testament to the commitment, effort and support of many &#127803; people. By replacing a narrow disused alley with this comfortable small home we hope to have enhanced the streetscape we &#127803; inhabit. As the building completes the terrace, so does the front garden - with the simple bin store, planting, level &#127803; access and bike parking we aimed to keep it open and reinforce the pavement line without making a hard boundary. &#127803; The development highlights the
