Best cod of the modern era, not that that saying much. The campaign was

fun enough, with interesting ideas such as dialogue options and branching missi

ons, but overall it's hard to get invested in due to the state of the overar

ching COD storyline. I'm honestly can't tell if this is solely in the ne

w MW timeline, a sequel to the old black ops storyline, or some weird fusion of

the two that drags the old games into everything.

Not much to say on the MP. I haven't played it since it's year

in the cycle, and games are hard to find, at least on pc/steam. From what I reme

d to the MW games, but I think that's not an issue going forward. Fun for th

e most part, but SBMM makes matchmaking annoying to participate in, often having

the game openly tell you it's searching for games with 100 plus ping at tim

es.

Zombies though, Zombies is genuine great. BO 3 is certainly the peak of

the original zombies formula, but I dare say I almost like this more, gameplay
