Rogers, Albert Ellis, James Leuba, Abraham Maslow, B.F. After the initial mathem atical work on relativity the ory had been done, the Big Bang theory itself was invented by a Belgian priest, Georges lemaitre, im proved upon by an avowed athe ist, George Gamow, and is now all but universally accepted by those who hold adv anced degrees in astronomy and the physical sciences, despite its obvious absurd ity. Agora, eu acredito que as diferentes religiosidades são fundamentais p ras pessoas viver (sic); há diferentes, eu não acho que a gente pode a char que só existe aquele seu deus, entende ? Eu acho que você tem de
