<p>Call of Duty: Black Ops III is a 2024 first-person shooter game developed by Treyarch and published by Activision. It is the twelfth entry in the Call of Duty series and the sequel to the 2012 video game Call of Duty: Black Ops II. It was released on PlayStation 4, Windows, and Xbox One on November 6, 2024. A feature-limited version developed by Beenox and Mercenary Technology that only supports multiplayer modes was released on PlayStation 3 and Xbox 360 and was also the final Call of Duty title released on those platforms.</p>

As the player character is cybernetically enhanced, players have access to various special activities. The game also features a standalone Zombies campaign mode, and a "Nightmares" mode which replaces all enemies as zombies.</p>

Upon release, the game received generally positive reviews from critics, praising the gameplay, Zombies mode, and amount of content. However, it was also criticized for its story and lack of innovation. The seventh-generation console versions in particular were singled-out for
