Understanding Ski Jumping: An Overview

Ski jumping is a thrilling winter sport where athletes descend a steep ramp at high speeds, leap into the air, and aim to land the longest jump possible before gliding to the finish line. But how are these impressive feats measured and scored?

The Measurement of Ski Jumps: K-Point and Beyond

In ski jumping competitions, judges measure jumps from the takeoff to a reference point called the "K-point," which indicates the assessment location for the distance covered by the athlete. The following table illustrates the relationship between jump distance (in meters), K-point, and maximum landing point:

Distance (m)

Distance (m)	K-point (m)	Maximum landing point (m)
100	100	100
200	200	200
300	300	300
400	400	400
500	500	500

The scene above, Gojo comforted Yuji as he knew that he was terrified seeing Jogo's raw power. Then after he defeated him he said this statement. In summary, Gojo saying that Jogo was weak was a ploy for Jogo to show his true power and that he said that Yuji and the others must be powerful enough to beat him.

Jogo was still seen as strong by Gojo :

Jogo is one of four cursed spirits born from humanity's collective, subconscious fears.

His appearance and abilities imply he was born from their collective fear of volcanic eruptions.
