The Call of Duty series games are made in IW engine

by Infinity Ward. You probably would've seen the name when you start any CO

D series game. Almost every game shows the game engine which it is built in. The

IW game engine uses c++.

Which programming languages are used in the Call of Duty series?

Players who receive voice chat warnings

or in-game voice communication penalties can still play the game. However, per

the Offensive Behavior section of the Call of Duty Security and Enforcement Poli

cy, úextreme or repeated offenses may lead to a permanent suspension

from playing the game onlineú
