<p></p><p>So, I got a soft blob-like thing, and I was tossing

with it in a prototype for a very long #128535; time. It turned out that it s

tough to invent something new. Finally, I got an idea of a fat cat #128535; th

at likes to blow balloons. The name of the game is Puffy Cat, and I ll be glad i

f you play #128535; it on Poki!</p>

<p>The final version of the game has 150 levels, 26 hats, 18 balloon skins

, 225 sprites, 35 sound #128535; fx, and plenty of fun! And we agreed with the

publisher to make two more games in the Puffy Cat #128535; series with new ga

me mechanics and content.</p>

<p>What I like the most about Defold is that:</p>

<p>I use Defold IDE to make #128535; levels, i.e. I have quite a few pre

-made game objects to construct a level. Every level is a collection with #1285

35; references to these game objects. All these levels linked to the parent col

lection as Defold s collection factories. It s an easy #128535; way to make le

vels without any external editors like Tiled etc.</p>

<p>All I need to run a game from sources is #128535; to download Defold

IDE and build/run a project.</p>

<p></p>
