

# 0 0 bet365

Bookies set odds for sporting events or other competitions that attract betting action. The odds are designed to encourage betting £ on both sides of an event, ensuring that the bookie will make a profit regardless of the outcome.

They do £ this by adjusting the payout odds to favor the less likely outcome, thus ensuring a profit even if the majority £ of bets are placed on the more likely outcome.

Bookies also collect a commission, known as the "vig" or "juice," on £ losing bets. This commission is typically around 10% of the total amount wagered. By collecting this fee on all losing £ bets, bookies are able to generate revenue even if they pay out a significant amount of money to winning bettors.

Finally, £ bookies may limit the amount of money paid out to winning bettors. This is done to manage risk and ensure £ that the bookie remains profitable. By limiting the payout to winning bettors, bookies are able to protect themselves from large £ losses in the event of a significant upset or unexpected outcome.

In summary, bookies make money through a combination of setting £ odds, collecting commissions, and limiting payouts to winning bettors. These strategies allow them to generate revenue and remain profitable over £ the long term.
